

# BJ PROJECTS

BJ Projects ministry is to plant churches, mobilize new believers, and train them to reach the unreached Muslims in South Asia. They have been longtime partners with Global Fellowship and have planted hundreds of churches in South Asia among Muslim-background believers. The task is huge as there are 146 million unreached Muslims in South Asia. Their work faces heavy opposition, persecution, and many limitations; but praise God that people are still coming to the Lord through their ministry. They are faithful church-planters who are dedicated to bringing the Good News to Muslims in South Asia.
